Description of product

Product "SIT WORKER SPEED STEEL III /W0077/, type Sit harness and derived variant SIT WORKER 3D SPEED STEEL /W0077D/" consists of the thigh straps, the belt and the back support. Sewing of load bearing parts is grey, in contrasting colour to the straps, for easier visual control. The belt and the thigh straps are fitted with adjustment buckles with rounded edges. The harness is fitted with one front attachment element for work positioning and two symmetrically placed side attachment elements for work positioning.
